INNOVATIVE WORKWEAR EST. 1892

Tradition, innovation and quality are values that have shaped our business activities for the past 130 years. But as a traditional manufacturer of workwear for the catering, hotel, medical, care, wellness and cosmetics sectors, we do not think of "resting" on these values. Just in time for our company anniversary, we are declaring the topic of **sustainability** to be another fundamental corporate guideline. With the product and company certifications **Green Button (Grüner Knopf)**, **Global Organic Textile Standard (GOTS)** and **Global Recycled Standard (GRS)**, we have succeeded in achieving the certification with strict and well-known standards in the textile sector. We are of course proud of what we have achieved, but we cannot and will not sit back and relax. Many more challenges lie ahead of us in the coming years - whether as a company or as a society as a whole.

Thomas Karlowsky
Managing Director

Karlowsky® Simply REIMAGINED!!

As one of just under 80 companies in Europe, Karlowsky has been certified with the **Green Button (Grüner Knopf)** since 2021. The Green Button certifications and the two international product seals **Global Organic Textile Standard (GOTS)** and **Global Recycled Standard (GRS)** form the foundation for current and future product development and manufacturing at Karlowsky®.

To ensure that the sustainable company guideline is highlighted in all product areas and collections, new ecologically-sustainable products within the entire range are labelled with **Green Generation®**. These products are made of certified sustainable materials such as organic cotton and recycled polyester. In addition, as always, they are characterised by manufacturing under fair production and working conditions worldwide as well as comprehensive tests for harmful substances. Karlowsky has these regularly tested in compliance with international standards (**Standard 100 by OEKO-TEX®**, **Labtech Prüfgesellschaft mbH** and **amfori BSCI**).

The aim is to become one of the most sustainable producers of workwear in the gastronomy, hospitality, medical, care, wellness and cosmetics sectors in the coming years.

GREEN BUTTON

GOOD FOR PEOPLE.
GOOD FOR NATURE.

Karlowsky Fashion carries products that are certified with the Green Button label (Grüner Knopf)
GOOD FOR PEOPLE. GOOD FOR NATURE.

The Green Button (Grüner Knopf) is a government-run certification label for sustainably manufactured textiles. It provides guidance for consumers when shopping. The Green Button (Grüner Knopf) sets out mandatory requirements to protect people and the environment in the textile production process. A total of 46 stringent social and environmental criteria must be met – ranging from waste-water to forced labour.

What is special about the Green Button (Grüner Knopf) is that the company as a whole is also audited, not just the product. This makes it the first government-run certification label to systematically audit companies for compliance with human rights and environmental due diligence in their supply chains.

The government defines the criteria and conditions for the Green Button (Grüner Knopf), creating clarity and trust. Independent auditors review compliance with the criteria.

More information:

Certified by Control Union, CU 1091876
www.g-k.eu/karlowsky

Karlowsky® is certified according to GRS

Karlowsky Fashion is certified as a company according to the Global Recycled Standard (GRS). GRS is a product standard for tracking and verifying the percentage of recycled materials in a final product. The standard applies to the entire supply chain and addresses traceability, environmental principles, social requirements, chemical content and product labelling. With GRS certification, Karlowsky Fashion supports a circular economy that reduces waste by using it to make new products. These criteria are constantly monitored by independent accredited bodies.

The certificate's criteria include:

- fibre use criteria
- strict social criteria
- minimum water consumption
- free from toxic substances such as PFC and PTFE
- rules for storage, packaging & transport

A product can only be certified when the complete production chain from the manufacture of the raw material to the finished product is certified.

Quality Testing at Labtech

In the accredited German testing laboratory LABTECH Prüfungsgesellschaft mbH, we test our materials and products for washing properties, functionalities and harmful substances in accordance with standardized test procedures. This ensures quality assurance along the entire supply chain.

Member of amfori, the leading global business association for open and sustainable trade. We participate in amfori BSCI. For more information visit www.amfori.org

BSCI (BUSINESS SOCIAL COMPLIANCE INITIATIVE)

We, Karlowsky Fashion GmbH, are staunch participants of the amfori BSCI (Business Social Compliance Initiative) and have committed ourselves to compliance with the BSCI Code of Conduct. It includes basic requirements for our manufacturing companies in terms of working conditions and social standards.

These standards include:

- the right to freedom of association, the right to collective bargaining,
- no discrimination, fair remuneration, decent working hours,
- occupational health and safety, no child labour,
- special protection for young workers, no precarious employment,
- no bonded labour, protection of the environment, ethical business behaviour.

We are committed to these standards and we want to work exclusively with companies that continuously adhere to the same values. By choosing Karlowsky Fashion GmbH, you are choosing articles that have been produced in a socially responsible way.

www.amfori.org

Karlowsky Fashion carries products with the STANDARD 100 by OEKO-TEX® product seal

If a textile article has been awarded the STANDARD 100 label, all components of this article, i.e. also all threads, buttons and other accessories, have been tested for harmful substances. The testing is carried out by independent accredited testing laboratories based on the extensive OEKO-TEX® criteria catalogue. The testing procedure takes into account numerous substances, both regulated and non-regulated, that could be harmful to human health.

In many cases, the limit values set for STANDARD 100 exceed national and international requirements. The criteria catalogue is updated at least once a year and expanded to include new scientific knowledge or legal requirements.

Certified by Hohenstein, S13-0998 HTTI
www.oeko-tex.com/standard100

Karlowsky® is certified according to GOTS

Karlowsky Fashion is certified as a company according to the Global Organic Textile Standard (GOTS). GOTS is recognized as one of the world's leading standards for textiles made from ecologically produced natural fibres. At a high level, it defines environmental requirements along the entire textile production chain and at the same time requires compliance with social criteria. These criteria are constantly monitored by independent accredited bodies.

The certificate's criteria include:

- criteria for fibre use
- strict social criteria
- complete wastewater treatment
- regulations on the use of chemicals
- regulation for storage, packaging & transport
- regular testing for harmful substances

A product can only be certified when the complete production chain up to the finished product is certified.

Information

KARLOWSKY FASHION 2022

SIZE CHART

The measurements listed by us refer to the wearer (person) and not to the measurements of the respective garment! For example, if the chest measurement is 101 - 104 cm, it means that this product is suitable for a person with this chest measurement. It does not mean that the product itself has these measurements. If your measurements are somewhere between two sizes - we recommend ordering the larger size. Some Karlowsky® trousers come with 3 different inside leg lengths for an optimal fit. Look for the size suffixes s (short) & l (long) when making your selection. All other Karlowsky® trousers are manufactured with a uniform inner leg length of 81 cm. Therefore, for these trousers, the inside leg measurement in the "Normal sizes" table applies.

LADIES

Jackets & Shirts

MEASURING

The assistance of a helping person is recommended. We recommend to wear tight-fitting clothing or underwear. Measure directly on the body. The necessary additions for the comfort or functionality are taken automatically by us during the creation of the textiles.

RECOMMENDATIONS

Please consider the following helpful measuring recommendations:

1 BODY HEIGHT

Measured from the heel to the top of the head.

2 CHEST WIDTH

It is measured horizontally around the body at the strongest point of the chest.

3 WAIST WIDTH

It is measured horizontally around the waist at the thinnest point.

4 HIP WIDTH

It is measured horizontally around the hip at the strongest point of the buttocks.

5 INSIDE LEG LENGTH

It is measured from the front inside along the leg straight down to the floor.

6 FOOT LENGTH

The greatest distance between the heel and the big toe is measured.

**TEXTILE FINISHING
AND CUSTOMIZED
CORPORATE FASHION**

Trendy fashion and uniform corporate wear is a solid investment in your company's future. With the additional and customized textile finishing of your company clothes the perception of your company to the outside world is reinforced and your market image enhanced.

WASHING SYMBOL LEGEND

WASHING															
		normal	mild	normal	mild	normal	mild	very mild	normal	mild	very mild	hand wash	do not wash		
The numbers in the washpot specify the maximum temperature in °C which must not be exceeded. The bar underneath the wash tub characterizes a mild process with reduced mechanical action especially for easy care articles. The double bar indicates a very mild process especially for woollen articles.															
BLEACHING															
		any oxidizing bleaching agent allowed				only oxygen/non-chlorine bleach allowed				do not bleach					
DRYING															
		tumble drying possible, normal temperature				tumble drying possible, lower temperature				do not tumble dry					
The number of dots indicates the severity according to the severity of the tumble drying process.															
IRONING															
		Iron at max. Temperature of 200°C				Iron at max. Temperature of 150°C				Iron at max. Temperature of 110°C				do not iron	
The number of dots indicates the severity according to the temperature of the hand iron.															
PROFESSIONAL TEXTILE CARE															
		The letters within the circle specify the solvents that can be used. The bar under the circle indicates a mild professional dry cleaning process. The double bar indicates a very mild process. These may concern mechanical action and/or drying temperature and/or water addition in the solvent.													
															
The letters within the circle specify the wet cleaning process. The bar under the circle indicates a mild professional dry cleaning process. The double bar indicates a very mild process. These may concern mechanical action and/or drying temperature and/or water addition in the solvent.

Legend Textiles

STRETCHABLE
ELASTIC FIBRE

"Stretchable" marked articles are made of fabrics in which elastic fibres have been integrated. These fibres are particularly stretchable and provide perfect comfort with optimum freedom of movement.

BREATHABLE
CLIMATIC FIBRE

"Breathable" marked articles are equipped with special ventilation vents and/or consist of fabrics that are particularly breathable. This provides continuous air circulation around the body for a cooling effect, even in very warm environments.

Beau-Fixe

The Beau-Fixe®-treatment is a high-quality textile finishing method that improves fabric properties so the textile becomes crease-resistant and easy-iron. The improved properties reduce the effort of ironing and prevent occurring wrinkles while wearing. Treated fabrics are more resistant to machine wash, they dry faster and show a softer touch with elegant appearance.

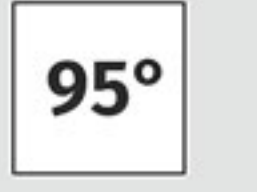

MADE IN GERMANY

Identifies products Made in Germany

WATER REPELLENT

Identifies products with water-repellent properties

95°

Washability

Very light fabric

Information: Due to different fabric qualities there might be slight colour differences. There might also be slight colour differences within a size range, due to production. Illustrated colour values are approximate values.

By the publication of this catalog the former main catalogue 2020 is no longer valid. We steadily develop the items of our collections and reserve the rights to improve and change the collections, while this catalogue is valid. Despite of the greatest caution, there may be discrepancies in the representation of the textile colours, because of print-technical matters. Possible colour-discrepancies, type errors, as well as misprints in graphic or writing are reserved.
